

FAIRWAY WOODS

Features:

Each EQ1-NX fairway wood head is produced with the ability to add up to a maximum of 30g to achieve normal swingweights at a 40" to 41" single length to complement the EQ1-NX single length irons and hybrids

Natural head weight spec of each EQ1-NX fairway wood head also allows assembly to conventional wood lengths of #3(42"-43"), #4(41.5"-42.5"), #5(41"-42"), #7(40"-41"). Any length in between 40" and conventional fairway wood lengths is also capable for an even wider range of fitting options

High COR thin high strength steel face design

Available in #3(15°), #4(17°), #5(19°), #7(21°) in RH. For single length use we recommend a set makeup of #3/#5 for better ball strikers or players with a driver clubhead speed over 95mph and a set makeup of #4/#7 for average players or any golfers with a driver clubhead speed under 95mph. The four different weight bores allow for maintaining the best CG position low and center located, as well as to be able to increase the trajectory with the new twin rear sole weight bores.

Each EQ1-NX fairway is shipped with 2 x 6g and 2 x 9g weights included to make it more economical when building to match the EQ1 single length irons.

The spec lie angle of 60° for each EQ1-NX fairway wood is created for assembly to the single length option between 40" and 41". EQ1-NX fairway woods are capable of being bent up to 2° to allow proper lie fitting when assembled to conventional fairway wood lengths.

Head	Desc	Loft	Lie	Weight	Face Prog.	Bulge	Roll
TW866FW-3	3-Wood	15°	60°	207g	16.5mm	14"	GRT
TW866FW-4	4-Wood	17	60	212	17	14	GRT
