Wishon's new single length iron design concept EQ1-NX offers same length and high COR low loft iron characteristics while adding many new performance enhancing features to mark a definite step forward in game improvement iron design.

- Enabled by the new 2-piece hollow body design, the Center of Gravity moves progressively through the set from lowest and most rear located on the #5 iron to highest and most forward located on the GW and SW to achieve more consistent shot shape and shot height for each iron in the set
- Traditional GW and SW profile shapes with milled faces and a custom sole grind .
- 275g head weight with hosel weight bore allows assembly to any single length between 35.5" and 37.5" while still being able to achieve a reasonable range of swingweight/MOI (depending on shaft weight and grip weight)
